

„Gaza is on fire“

*Are you, are you
Staying silent, too?
While people are starved
But far away from you*

*People keep dying and
We all just live our lives
But a child loses all
In the land of Palestine*

*Are you aware, that genocide is here
And they still deny
And call it a birthright*

Gaza is on fire and the children plead and cry

Will you listen and fight for their right to survive?
